

## ANDREW ELLIS

Retired Environmental Scientist

Board Member  
*EcoActUs Foundation, Inc.*

[MEET ANDREW IN PERSON](#)

### BIOGRAPHY

Andrew Ellis is a retired environmental scientist and Board Member of EcoActUs Foundation, Inc., with a career spanning environmental analysis, risk management, and climate leadership. A senior member of The Climate Reality Project's Leadership Corps, he co-founded the Los Angeles Chapter and continues to serve in key policy and coalition roles. Andrew has mentored climate leaders globally and has spent over a decade delivering presentations on sustainability, biodiversity, and renewable energy to diverse audiences. His current research explores the intersection of paleontology.

## CALIFORNIA'S CLIMATE CORPORATE REPORTING REGULATIONS: BEFORE YOU REPORT, YOU NEED TO UNDERSTAND - A GHG EDUCATION PATH FOR SME SUPPLIERS

Thousands of suppliers, many of them small- to medium-sized corporations, will be drawn into the new California climate reporting regulation starting in 2026 via their larger obligated customers. To avoid falling behind and facing regulatory consequences, suppliers must act rapidly to develop the required knowledge. The timing of gaining this knowledge is critical.
